

THEBAULT CONSULTING

TRANSLATIONS – INTERPRETING – LEGALIZATIONS

LEGAL, FINANCIAL, TAX Translations

METHOD

Thébault Consulting specializes in **legal, financial and tax translations**.

These fields require detailed knowledge and the ability to adapt to the specificities of each country's legal and economic system through terminological research. Our translators must choose the most accurate term or the best equivalent, in order to avoid approximations. They are also sometimes confronted with problems of equivalency in terms of country-specific concepts, systems, organizations, fiscal regulations or standards. Thanks to our translators' extensive experience in resolving these types of challenges, they bring valuable advice and true expertise.

We choose one specialized translator for all of your projects, in order to ensure quality and terminological consistency throughout your translated documents.

SKILLS

Our translators are corporate counsels, bar registered lawyers, consultants, certified accountants, university professors or tax specialists, and always translate into their native language. They have over 15 years of solid experience and have constantly endeavored to improve their skills and knowledge through international training courses and use of the latest translation software for creating terminology databases.

Our translators come from a variety of educational backgrounds and have worked within international firms, multinational companies or specialized translation agencies.

CERTIFIED TRANSLATIONS

Thébault Consulting provides **certified translations in a number of European languages**.

Official translators are particularly skilled in legal areas. These translators have taken oath in court and their certification is officially recognized by the French courts and administrative authorities.

Our translators are bound by professional secrecy by signing confidential agreements.

LEGAL

Labor law, public law, corporate law, summons, pleadings, terms and conditions, contracts, leases, licence agreements, distribution contracts, service contracts, court rulings, articles of association, property valuation reports, shareholders agreements, mergers and acquisitions.

FINANCIAL

Financial analyses, business plans, issuance contracts, prospectus, annual reports, audit reports, management reports, stock option plans, transfer prices.
